Subject: Milwaukee Die Casting BRRTS#02-41-000023 - groundwater site investigation work plan

Good morning Greg-

Thank you for responding to our June 28, 2019 (email) comments regarding sampling for SVOCs in site groundwater and, subsequently, accepting the Department's request to initially sample for SVOCs, including 1,4-dioxane. We look forward to receiving your revised Site Investigation Work Plan and will review it expeditiously. Thank you again.

Steve

We are committed to service excellence.
