**Subject: Additional Groundwater Sampling Event**  
Milwaukee Die Casting Company Site  
4132 North Holton Street, Milwaukee, Wisconsin  
WDNR BRRTS # 02-41-000023  
WDNR FID # 241228240

Dear Ms. Dorman,

We are writing to notify the Wisconsin Department of Natural Resources (WDNR) that an additional groundwater sampling event is planned for the Milwaukee Die Casting Company Site (“Site”). This letter is being submitted on behalf of Pharmacia LLC (Pharmacia), which is acting on behalf of Fisher Controls International, Inc. (Fisher) in this matter.<sup>1</sup>

Pharmacia has completed the scope of work documented in the WDNR-approved November 12, 2019 Updated Site Investigation Work Plan (SIWP). A Supplemental Site Investigation Report is currently being prepared for submittal to the WDNR.

The additional groundwater sampling event will be conducted in April 2021 to maintain a quarterly sampling schedule<sup>2</sup> for the purpose of continuing to advance the Site towards WDNR closure.

Each of the existing 14 groundwater monitoring wells (MW-1 through MW-14) and three (3) piezometers (PZ-1, PZ-2 and PZ-10) will be sampled during this additional sampling event. Prior to sampling, water level measurements will be conducted. The groundwater sampling procedures will be consistent with the SIWP with the exception of the analytical parameter list. Based on the results of the two quarterly sampling events completed in accordance with the SIWP, the additional groundwater sampling event samples will be analyzed for volatile organic compounds (VOCs),

---

<sup>1</sup> By submitting this letter, neither Pharmacia nor Fisher is waiving any of its rights under federal or state law. Additionally, nothing in this letter should be deemed an admission of fact or law, or a waiver of any defense or right to contest Pharmacia or Fisher's liability under any state or federal law.

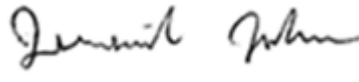

<sup>2</sup> The two groundwater sampling events conducted in accordance with the WDNR-approved SIWP were completed in September/October 2020 and January 2021.
