Subject: Former We Energies Appleton MGP - Path Forward with MW-3 at Lawrence University Property

Frank,

Based on our discussion yesterday, the path forward with MW-3 at the Lawrence University Property will be to include MW-3 data and extend the groundwater plume to include MW-3 in future submittals. Since MW-24, a downgradient well from MW-3 and the site, will remain in place, the well will not be transferred to the Appleton Cty (Coal Tar) MGP Site (02-45-000042). MW-3 will be abandoned prior to closure of the Lawrence Univ Academy of Music site (02-45-582612).

Please reach out if you have any questions or concerns.

Thank you for your time yesterday.

Sarah
