Subject: Ellen Kort Peace Park - Timing for completion of construction and documentation

Good Afternoon Frank and Tom,

I wanted to check in with you both related to the completion of the construction activities at the Ellen Kort Peace Park located at the Appleton Cty (Coal Tar) MGP Site (BRRTS # 02-45-000042).

The July 30, 2020 Approval to Manage Solid Waste under Wis. Admin. Code § NR718.12 For On-Site Management requires documentation of the material management activities and updated cover maintenance plan within 60 days of the completion of this project. The Appleton City (Coal Tar) MGP site 2022 Annual Report received by DNR March 3, 2023 indicates that the construction work began June 2022 and that when work is completed the documents would be provided by the City of Appleton and We Energies respectively.

If you could please provide an update as to when the construction and documentation is expected I would appreciate it.

Be aware that I will be on leave starting this week through September 11, 2023, and another reviewer may be assigned if the necessary documentation is provided while I am out of the office.

Thank you,
Sarah
