FILE

Subject: **Close-out of Case #54822-9998-16**
Northland FS Cooperative
216th Street
Cameron, WI 54822

Dear Mr. Sharpee:

On May 8, 1997 the above site was reviewed for closure by the Site Review staff of the PECFA Bureau. Because the site involved only soil contamination, without a threat to groundwater, all issues relating to this site are administered by the staff within the Department of Commerce's PECFA Bureau. Using the standards established in NR 700, the Department has determined that this site has been remediated to a level protective of the environment and human health. The Department considers this site to meet environmental standards, and no further action is necessary.

This is based upon the information provided to us by your consultant. If, in the future, site conditions indicate that any contamination that might remain poses a threat, the need for further remediation would be determined and required if necessary.

At this time I am signing the Form 4-B for the Completed Remedial Action at this site. I have included your copy with this letter and sent the original to your consultant to be submitted with the claim package to Madison.

Thank you for your efforts in the protection of the environment. If you have any additional questions, please call me at 715-762-5557.

Sincerely,

Shanna L. Laube
Hydrogeologist
