Dear Mr. Christiansen:

I received your January 5, 1988, letter and reports concerning an environmental investigation of the old pole dipping plant area. In a brief review of a document there appears to have been a release of pentachlorophenol to the environment. We are evaluating the information and will be contacting you on what additional work, if any, may be necessary.

If you have any other questions prior to that, please feel free to contact me at the District Office, telephone (715)362-7616.

Sincerely,

Gary F. Kulibert
District Solid Waste Coordinator
