Mr. P. C. Christiansen
P. O. Box 100
Phelps, WI 54554

Subject: Partial Analyses Data, Sylvan Products Corporation, CTH E,
Phelps, Wisconsin

Dear Mr. Christiansen;

The Department is in receipt of your letter of 10/18/89. The Department recognizes that the location of the site is remote to the location of environmental contractors. The Department will take your request for an additional 30 days to complete the requests of the Department's 10/11/89 letter under consideration. The Department expects that no unnecessary delays occur in addressing this matter and that the discharges are stopped and the drums recontainerized as soon as possible.

Enclosed are copies of the analyses done for volatile organic compounds (VOCs) on contaminated soil from beneath drums marked S-23 & S-27. The drum numbers were field assigned by me for inventory purposes. Also enclosed is an evidence receipt for the samples that I took during my site visit. As further analyses are completed a copy of the results will be forwarded to you.

If you have any questions about this letter, please call me at (715) 848-2201.

Sincerely,

A handwritten signature in black ink, appearing to read 'Richard R. Eakins'.

Richard R. Eakins
