

CORRESPONDENCE/MEMORANDUM

State of Wisconsin

Date: January 11, 1990

File Ref: 4430

To: Gary Kulibert, Rhinelander

From: Richard Eakins, Wausau

Subject: Sylvan Products Corporation Spill Case Reassignment

Due to my new responsibilities in the L.U.S.T. program, I am requesting that the Sylvan Products Corporation spill case be reassigned. As you are well aware, the backlog of cases in the L.U.S.T. program requires both Bob's and my attention.

I have drafted a letter to Mr. Christiansen for Roy Jacobson's signature. Please review this letter and forward it to Roy with your comments.

Mr. ~~P.C.~~ P.C. Christiansen

Rich Eakins

SUBJECT-MESSAGE

Mr. Christiansen,

Enclosed are copies of the results from three samples taken at the Sylvan property. While the total metals concentrations are a concern, the concentrations do not make the wastes "hazardous wastes".

SIGNED Richard Eakins DATE 4/30/90

REPLY May 2, 1990

TO: Mr Richard Eakins:

\* Thank you for the Lab Reports, but what do I do now? Please advise.

P.C.

Subject: Sylvan Waste Disposal Site

*Vilas (Phelps)*

I am enclosing data sheets from the SLOH along with Mr. Christiansen's response of May 2, 1990. I have not sent copies of the data received on May 15, 1990 to Mr. Christiansen. Gary advised that I send to you as the wastes in question do not appear to be hazardous wastes.

Mr. Christiansen has been requested to retain a qualified consultant to submit a SOW to clean the site up. He has not submitted any plan to date as far as I know. If I can answer any questions on my involvement in this case, please give me a call.
