SUBJECT: C.M. Christiansen Co. Case

Dear Mr. Roder:

I'm writing in response to your letter dated December 21, 1994. I apologize for the difficulty you had in trying to contact Scott and I. We have now moved into the new office addition and there was a period of time that the new phone system had not been connected. Also, the prefix to our telephone numbers has been changed to 365 instead of 369. Voice mail will be installed during the month of January.

During January, a representative of EPA will visit the C.M. Christiansen Co. site with Scott to determine an estimate for cleaning up the site. Once this site visit is complete, I will contact you to arrange a conference call to discuss the process, costs, etc.

We have not yet received the fish survey results, therefore a report has not been written. It is my understanding that it will be 2 to 4 months before a report is written. I will certainly send you the results and the report once I receive them.

If you have any questions, please contact me at 715-365-8935.

Sincerely,

Michelle DeBrock-Owens
Environmental Enforcement Specialist
