

11 February 1995

Dear Mr. Watson:

This, to acknowledge the receipt of your letter drawn 1 February 1995. Your letter was forwarded to me (out of town) by my office and received here just yesterday.

I have chosen your alternative Four (4), have contated the Amasa, Michigan group to do Phase I (investigation of site for C.M.C. CO.) and Mr. Rader to follow through with them and you. Hopefully, all will proceed as you have requested. You should have received word from both by the time you receive this note.

Phase II can be handled by some lucky contractor whom we feel is properly qualified after Phase I is completed to our satisfaction. Possibly the Amasa group can do that too, but if not others are willing and able, I am sure. Sincerely,

C. M. C. CO.

A handwritten signature in black ink, appearing to read "P. C. Christiansen". The signature is fluid and cursive, with a long horizontal stroke at the end.

P. C. Christiansen
