

CORRESPONDENCE/MEMORANDUM

State of Wisconsin

DATE: June 21, 1995
TO: Jim Kritlow, NCD
FROM: Scott Watson, NCD
SUBJECT: Sediment Sampling SOW
C.M. Christiansen Site

RECEIVED
JUL 22 1995
EMERG & REMEDIAL RESPONSE SECTION
BUREAU OF SOLID & HAZARDOUS WASTE

FILE REF: ERRP

Jim, thanks for the opportunity to review the sediment sampling scope of work.

Frankly, I have nothing to add. The only comment I would share is that we will not be doing any oil & grease sampling as part of the site remedial investigation. I believe that DRO will cover all of our concerns for heavy hydrocarbons.

If your sampling team would like for me to develop the site safety plan I would be happy to do so. I will need to develop one for ERP work as well. Let me know.

Again, my thanks to you and your WRM team for your outstanding cooperation and support on this project.

cc: Connie Antonuk, NCD
