Carrie,

OK, that would be a picture of the sign by the culvert on CTH E. The picture I sent you last Friday are three pictures of the two signs on the east side of Military Creek. I will now send you two email depicting the location of the other seven signs on the west side of the creek.

Image 2404: Depicts two signs--one to the left of the gate and one back further to the right next to the creek.

Image 2405 (this picture was taken just north of Image 2404): There are three signs in this image: one in the foreground behind the fence; one further back on the left in an open area between several fence enclosures; the third sign is further back on the right beyond an enclosure closer to the creek (this sign will also be in one of the final two images that I will send you in a separate email with Subject Line of "Images 3 & 4".)

Regards,

Rollie

Good morning, Rollie. I just listened to your voicemail. The only other picture I have is the one you sent in May showing the sign next to the culvert on Hwy 17.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Carrie,

Here are the final two images that will identify where the final two signs are located. NOTE: there were ten signs installed in total.

Image 2402: Depicts a sign in the foreground at the corner of an enclosure and behind a rickety snow fence. Back in the distance to the right is the sign that was previously identified in Image 2405.

Image 2403: In the foreground in the sign at the corner of the enclosure that was depicted in Image 2402. To the left and looking in the distance through the bushes is the sign that is furthest north on the Town of Phelps property on the west side of the creek.

That should account for all ten signs, If you have any questions, please contact me.

Thank you,

Rollie
