Summary Letter Report - addendum
Tomahawk Tissue/Georgia Pacific (LF #1878)
Tannery Road
Town of Bradley, Lincoln County, WI

Dear Mr. Hunt:

On August 31, 2020, REI provided a summary letter report for the above referenced site. However, while that report summarized the field work completed by REI, it did not include summary tables including all historical analytical. Please see the attached updated tables with all historical and recent analytical results combined into summary tables for all parameters as follows:

- Tables 1A through 1K - summary of VOCs analytical results
- Table 2A through 2K – summary of PAHs, metals, inorganics, and other parameters
- Table 3 summary of Dioxin analytical results for specific wells
- Table 4 summary of historical groundwater elevational data
- Tables 5A through 5C summary of field parameters

REI has also prepared and attached groundwater contour maps for the sampling events conducted on 10/30/2019 and 06/18/2020. If you have any questions or to discuss further, please contact our office at (715) 675-9784 or electronically at klassa@reiengineering.com.

Sincerely,
REI Engineering, Inc.
