Subject: Second Request for Permission for Access to Sample and/or Abandon Monitoring Wells,
17183 Pelky Road, Parcel #01941310482J, Lakewood, Oconto County, Wisconsin

Dear Mr. and Ms. Berna,

The purpose of this letter is to remind you that the Wisconsin Department of Natural Resources (DNR), in a letter dated April 2, 2019, requested permission to access your property described above for sampling and/or abandonment of existing monitoring wells.

On April 9, 2019 you contacted the DNR with information that the monitoring well on your property has already been abandoned. The department is requesting access to verify that the well has been removed and to sample and/or abandon the well if it is still in place.

In order to proceed, the DNR needs a signed access agreement by May 10, 2019.

Your signed Access Agreement is required for the DNR to complete this investigation. Please send the signed agreement back in the self-addressed envelope provided with this letter. You can also send a PDF copy to Sarah Krueger at Sarah.Krueger@wisconsin.gov.

If you have questions or concerns about the wording of the agreement or the testing, please call me, Sarah Krueger, at (920) 662-5431.

Thank you very much for your cooperation.

Sincerely,

Sarah Krueger

Wisconsin Department of Natural Resources
ACCESS PERMISSION AGREEMENT

DNR Site Name: Lakewood DX

Site Address: 15761 E Chain Lake Road, Town of Lakewood, Wisconsin

BRRTS# 02-43-000105

I/we, Ron and/or Tracy Berna, hereby give permission to the Wisconsin Department of Natural Resources (“the department”) and its employees, duly authorized representatives, agents and contractors, to enter upon and have access at reasonable times to the property located at 17183 Pelkey Road, Lakewood within NW 1/4 of Section 31, T33N, R16E, Oconto County, Wisconsin, referred to herein as the “Property”, and that is owned by Ron and Tracy Berna for the following purposes, so that the department may:

- (1) Inspect, maintain and/or repair the existing groundwater monitoring well(s) and piezometer(s) as needed;
- (2) Collect water samples from existing groundwater monitoring well(s); and
- (3) Properly abandon the groundwater monitoring wells installed at the request of the department when the wells are no longer needed.

The department is responsible for any investigative waste that is produced by these activities and will return to collect any investigative waste that may be temporarily stored on the Property.

The permission that is granted herein shall remain in effect until December 31, 2022. Before December 31, 2022, if the owner of the Property wishes to withdraw permission for continued access, the owner of the Property shall notify the department of that fact in writing. The department shall, within 90 days after receiving such notice, either cease/finalize listed activities, abandon wells, or obtain a court order to allow continued access.

The department’s authority to access to the Property described above is provided under Wisconsin Statutes, section 292.31(3).

The department will report all sampling results to the owner of the Property, and occupants as appropriate, within 10 business days of receiving the sample results. When soil, water, sediment, or vapor samples are collected on the Property described above, split samples will be provided to the owner if the Property if the owner of the Property requests split samples and provides sample containers before the samples are collected.

Entry notification

The department and/or the department’s contractor shall notify the owner of the Property by telephone or email of any planned activity on the Property in advance of entering the Property.

LAKEWOOD WI 54138

Subject: Request for Permission for Access to Sample Potable Well
15748 East Chain Lake Road, Parcel #019413104521F, Lakewood, Oconto
County, Wisconsin

Dear Mr. and Ms. Thomson,

The Department of Natural Resources (“the department”) is requesting permission to access your property, described above, to sample the potable well serving the property. The department previously had an access agreement for sampling the potable well serving your property which has since expired. The potable well has not been sampled since 2011 and is a part of a groundwater contamination investigation that started in 1987 with the former Lakewood/Pelky DX Station, formerly located on Chain Lake Road.

The department plans to begin work the summer of 2019. DNR staff or their hired contractor will be on-site to collect the potable well sample. It is ideal to collect the potable well groundwater sample as close to the pressure tank as possible which means DNR staff will need to enter your home. If you will not be available during the sampling event(s), the samples can be collected from an outside tap; provided that the tap is on and water from that outside tap does not run through a filter system. You will be provided with a copy of the analytical results. There will be no cost to you for this work.

Please sign the enclosed Access Permission Agreement and complete the enclosed Potable Well Sampling Form and return it to me in the enclosed stamped envelope by April 19, 2019.

Please note that the department has asked for access through 2022. It is our hope that we will be able to abandon some of the wells as we move closer to completing the investigation.

If you have any questions, please contact me at (920) 662-5431, by writing to the address at the top of this letter or by email to Sarah.Krueger@wisconsin.gov.

Sincerely,

Sarah Krueger
