Subject: Lemberger - looking good!

Hey guys,

Just wanted to give a quick update....Dave D and I just had a call with EPA HQ on the MNA report and it looks like they are on board with the MNA concept! Woo-hoo!!! Dave used his magical ways and answered/explained away any potential reservations that HQ had.

So the plan forward is that WDNR and EPA are having a call early July to discuss the DMZ, I will be presenting our MNA remedy to my management in July and then I work on Proposed Plan, ROD Amendment after that.

Will be in touch in a few weeks after my vacation!

Demaree
