SUBJECT: Determination of the Need for WPDES Permit Equivalency
WPDES Permit Equivalency No. WI-0049573

Dear Ms. Westover:

The Wisconsin Department of Natural Resources (hereafter the department) has determined that the Lemberger Landfill Superfund Site no longer requires Wisconsin Pollutant Discharge Elimination System (WPDES) Permit Equivalency No. WI-0049573, issued on February 1, 1996, for the on-site groundwater extraction and treatment system located at Route 1 Hempton Lake Road, Whitelaw, Wisconsin. This determination is based on the fact that the on-site groundwater extraction and treatment system ceased operation in November 2017 and has since been decommissioned. Therefore, there is no ongoing wastewater discharge to Branch Creek.

The decision to terminate the permit due to permanent elimination of the discharge is being made pursuant to s. NR 203.135(6)(b), Wis. Adm. Code. You have 30 days to file a written objection to the termination if you believe the decision is incorrect or if other factors exist which you believe may directly affect the department's decision. If you do not respond, WPDES Permit Equivalency No. WI-0049573 will be terminated, and no further discharge of wastes into waters of the State of Wisconsin will be permitted.

Please contact me by phone: (920) 410-5192 or email: Trevor.Moen@Wisconsin.gov if you have any questions about this notice.

Sincerely,

Trevor Moen
Wastewater Engineer
