ADRIAN PEREZ-GOMEZ
W4814 COUNTY ROAD S
BLACK CREEK WI 54106

SUBJECT: Second Notice: Access to Conduct Chemical Vapor Sampling Necessary by
September 30, 2022 at 715 South Outagamie Street, Appleton, WI

Dear Mr. Perez-Gomez,

The purpose of this letter is to remind you that the Wisconsin Department of Natural Resources (DNR) needs to sample your property at 715 South Outagamie Street for chemical vapor intrusion in order to complete our investigation of the N. W. Mauthe Superfund site (Site) located at 725 South Outagamie Street. On July 26, 2022, the Wisconsin Department of Natural Resources (DNR) contacted you seeking permission to collect an air sample from the soil beneath your basement and from within your home to determine whether harmful vapors from chemicals used at the Site may be present on your property or impacting your home.

In order to proceed, we need a signed access agreement by **September 30, 2022**.

Your signed Access Agreement is required in order for DNR to complete this investigation. Please send the signed agreement back in the self-addressed envelope provided with this letter. You can also send a scanned copy to me at gwen.saliares@wisconsin.gov.

Please do not modify the access agreement in any manner, since it may void the agreement. If you have questions or concerns about the wording of the agreement or the testing, please call me at (920) 510-4343. Once the signed access agreement is returned, DNR's contractor will send you information about the sampling date and time.

Chemical vapor intrusion can pose serious health issues in certain cases. The DNR strongly encourages you to sign the access agreement, allowing investigators the opportunity to determine whether chemical vapors are in fact a problem in your home. Please consider taking action in this matter now.

Sincerely,

Gwen Saliarez

Enclosures: Access Agreement

Wisconsin Department of Natural Resources
ACCESS PERMISSION AGREEMENT

I, _____ hereby give permission to the Wisconsin Department of
(Print Name)

Natural Resources (DNR) and its employees, duly authorized representatives, agents and contractors, to enter upon and have access at reasonable times to the home/business located at

(ADDRESS) _____

and that is owned by _____.
(Print Name)

The property is located in the NE ¼ of the NW ¼ of Section 34, Township 21 North, Range 17 East, City of Appleton, Outagamie County, Wisconsin. The access permission is for the following purposes: that the DNR may screen the home/business for vapor migration from chlorinated volatile organic compounds located in soil and groundwater, associated with the N. W. Mauthe Superfund Site located near your property. This permission allows the DNR or its authorized representative to:

- (1) *Install and maintain sub-slab vapor probe(s) into the foundation of the home or business.*
- (2) *Collect at least three (3) separate rounds of vapor samples from the sub-slab probe(s) at different times of the year.*
- (3) *Collect at least three (3) separate rounds of 24-hour indoor air samples on the basement and ground floor levels of the home or business at different times of the year.*
- (4) *Collect at least three (3) separate rounds of vapor samples from the sump pit, if present in the home or business, at different times of the year.*
- (5) *Abandon the vapor probe(s) when no longer needed.*

The permission that is granted shall remain in effect until July 26, 2024 when the vapor screening work is expected to be complete. If an extension is necessary to complete the work, DNR will inform you in writing.

The property owner agrees not to damage or interfere with the use of any sub-slab probe installed as permitted herein.

ANTHONY MCCAFFERTY
1418 WEST MELVIN STREET
APPLETON WI 54914

SUBJECT: Second Notice: Access to Conduct Chemical Vapor Sampling Necessary by
September 30, 2022 at 1418 West Melvin Street, Appleton, WI

Dear Mr. McCafferty,

The purpose of this letter is to remind you that the Wisconsin Department of Natural Resources (DNR) needs to sample your property at 1418 West Melvin Street for chemical vapor intrusion in order to complete our investigation of the N. W. Mauthe Superfund site (Site) located at 725 South Outagamie Street. On July 26, 2022, the Wisconsin Department of Natural Resources (DNR) contacted you seeking permission to collect an air sample from the soil beneath your basement and from within your home to determine whether harmful vapors from chemicals used at the Site may be present on your property or impacting your home.

In order to proceed, we need a signed access agreement by **September 30, 2022**.

Your signed Access Agreement is required in order for DNR to complete this investigation. Please send the signed agreement back in the self-addressed envelope provided with this letter. You can also send a scanned copy to me at gwen.saliares@wisconsin.gov.

Please do not modify the access agreement in any manner, since it may void the agreement. If you have questions or concerns about the wording of the agreement or the testing, please call me at (920) 510-4343. Once the signed access agreement is returned, DNR's contractor will send you information about the sampling date and time.

Chemical vapor intrusion can pose serious health issues in certain cases. The DNR strongly encourages you to sign the access agreement, allowing investigators the opportunity to determine whether chemical vapors are in fact a problem in your home. Please consider taking action in this matter now.

Sincerely,

Gwen Saliarez
