Wisconsin Department of Natural Resources
ACCESS PERMISSION AGREEMENT

I, ANTHONY MCCAFFERTY (Print Name) hereby give permission to the Wisconsin Department of

Natural Resources (DNR) and its employees, duly authorized representatives, agents and contractors, to enter upon and have access at reasonable times to the home/business located at

(ADDRESS) 1418 W MELVIN ST APPLETON, WI 54914

and that is owned by ANTHONY MCCAFFERTY (Print Name).

The property is located in the NE ¼ of the NW ¼ of Section 34, Township 21 North, Range 17 East, City of Appleton, Outagamie County, Wisconsin. The access permission is for the following purposes: that the DNR may screen the home/business for vapor migration from chlorinated volatile organic compounds located in soil and groundwater, associated with the N. W. Mauthe Superfund Site located near your property. This permission allows the DNR or its authorized representative to:

- (1) Install and maintain sub-slab vapor probe(s) into the foundation of the home or business.
- (2) Collect at least three (3) separate rounds of vapor samples from the sub-slab probe(s) at different times of the year.
- (3) Collect at least three (3) separate rounds of 24-hour indoor air samples on the basement and ground floor levels of the home or business at different times of the year.
- (4) Collect at least three (3) separate rounds of vapor samples from the sump pit, if present in the home or business, at different times of the year.
- (5) Abandon the vapor probe(s) when no longer needed.

The permission that is granted shall remain in effect until July 26, 2024 when the vapor screening work is expected to be complete. If an extension is necessary to complete the work, DNR will inform you in writing.

The property owner agrees not to damage or interfere with the use of any sub-slab probe installed as permitted herein.
