**Drainage Sampling Report  
For the Former DuPont Barksdale Facility  
Barksdale, Wisconsin  
(BRRTS #02-04-000156)**

Dear Mr. Saari:

DuPont is pleased to submit the attached Draft May 2002 Drainage Sampling Report for the former DuPont Barksdale Facility. The report documents the results of the May 2002 sediment and surface water sampling that was completed within each of the site's 10 known drainage features.

Three paper copies and one electronic copy of the one volume report are included (2 paper and one electronic copy for WDNR and one paper copy for the Washburn public library). DuPont appreciates your assistance transmitting the copy to the Washburn library for their files.

If you have any questions or desire any additional information, please feel free to contact me at (502) 569-2148.

Sincerely,

A handwritten signature in blue ink that reads "Bradley S. Nave".
