Mr. Scrabis,

I received your letter dated June 18, 2018. Thank you for taking the time to respond to my request for additional information.

After receiving your letter and reviewing the site file, there does not appear to be any additional site investigation warranted related to these releases. As you are aware, there are much larger issues at the Tyco facility! The case is closable; however, the reason it has not been closed is that an updated closure request was not submitted in 2014. An updated, complete closure request would address all the outstanding issues as outlined in the December 21, 2016 email from Kristen DuFresne (attached).

The current closure form can be found [here](#). With a complete closure request, I believe this can be moved to closure.

If you have any questions or wish to discuss further, my contact information is below.

Thanks and have a good weekend,
Dave

We are committed to service excellence.
