Subject: RE: Aniwa Arsenic

Revisions to Aniwa Arsenic ISA were made and posted along with a transmittal memo. If everything looks good I just need a signature. Just want to clarify that changes were made to only the narrative part of the document. No changes were made to the tables, figures, and appendices; no need to review if you don't want to. When I receive the signed signature page I will merge everything into one complete document and upload to SharePoint.

Thanks and have a great rest of the week!

Rick

How about Tuesday afternoon at 2:30? It looks like Rick and Tauren are free; not sure if we need both of them though. I can see how the removal action could complicate our future recommendations.
