SUBJECT: Final Case Closure By Closure Committee  
Fort James - Naphtha Spill, 1919 South Broadway, Green Bay, WI  
WDNR BRRTS #: 02-05-000251

Dear Ms. Powell:

On June 20, 2002 your site as described above was reviewed for closure by the Northeast Region Closure Committee. This committee reviews environmental remediation cases for compliance with state laws and standards to maintain consistency in the closure of these cases. On July 2, 2002 you were notified that the Closure Committee had granted conditional closure to this case.

On December 5, 2002 the Department received correspondence indicating that you have complied with the conditions of closure (i.e. abandonment of the groundwater monitoring wells). Based on the correspondence and data provided, it appears that your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code. The Department considers this case closed and no further investigation, remediation or other action is required at this time.

Please be aware that this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare, or the environment.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at 920-492-5943.

Sincerely,

Kristin DuFresne  
Bureau for Remediation & Redevelopment
