Re: Approval of the Pre-Design Investigation Work Plan – Revision 1, Former WPSC Green Bay MGP, Green Bay, Wisconsin

Dear Mr. Dombrowski,

The U.S. Environmental Protection Agency (EPA) has reviewed the document entitled: *Pre-Design Investigation Work Plan – Revision 1 (PDI WP)* and Response to Comments for the Wisconsin Public Service Corporation (WPSC) Green Bay Manufactured Gas Plant (MGP) Site, dated August 12, 2020. EPA acknowledges that WPSC will submit additional information regarding data gaps identified in EPA's comments dated May 29, 2020. EPA further acknowledges that comments regarding the data gaps remain outstanding and will be reviewed and addressed separately from this proposed sampling event. Based on this information, EPA has no further comments on the PDI WP and does not object to the work proceeding.

EPA looks forward to the upcoming discussions related to the resolutions of the data gaps in order to continue moving this site forward. If you have any questions, please do not hesitate to contact me at 312-886-6551.

Sincerely,

A handwritten signature in black ink, appearing to read "S. Rolfes".

Sarah Rolfes
Remedial Project Manager
