Subject: 2022-03-31 Response to Comments - Green Bay MGP Results Memo

Good Morning Leah –

On behalf of Frank (and myself), please find attached our response to comments received on March 15, 2022 on the Focused Supplemental Sampling and Investigation Results Memorandum, submitted to USEPA on February 18, 2022. Our responses summarize our continued discussion and recent meetings regarding the observed sheen in the East River in August/September 2021.

FYI, Frank is out on vacation for the rest of the week.

Let us know if you have any questions or wish to discuss.

Thanks,

Glenn R. Luke, PE
