Frank,

Please see the attached EPA response for the RAWP – Rev 2. As indicated, EPA has no further comment. Could you send a clean comprehensive copy of the RAWP Rev 2?

I am still waiting to hear back from my contractor on the pre con meeting and will get back to you as soon as I hear back.

Thanks,

Leah Werner

Frank,

Thank you for the update. Let me check with my contractor and get back to you on the pre-con date.

Please expect the EPA acknowledgement letter to be provided next week.

Thank you,

Leah Werner

Subject: Former WPS Green Bay MGP Site - Pre Construction Meeting

Hi Leah,

The bidders for the early action work on OU1 at the Green Bay site have requested a 2 week extension on the proposal deadline. As such, we will need to push back the award date and the subsequent pre con meeting. At this time, we anticipate we would meet at the site either 11/17, 11/18 or 11/21. Preferably, we'd like to do it prior to Thanksgiving week. Please let us know your availability for those dates. We regret any inconvenience.

Also, can you please give us an ETA on the acknowledgement letter for the RAWP? The disposal facilities are in need of a copy of that as the last step for waste profiling.

Thanks,

Frank Dombrowski

Re: Review of the Removal Action Work Plan Revision 2, WPSC Green Bay Former
Manufactured Gas Plant Site, Green Bay, Wisconsin

Dear Mr. Dombrowski,

The U.S. Environmental Protection Agency (EPA) has reviewed *Early Removal Action Work Plan – Revision 2* dated September 26, 2022, for a voluntary removal action for portions of operable unit (OU) 1 and OU2 at the Green Bay Former Manufactured Gas Plant Superfund Alternative Site (Site). On April 26, 2022, EPA sent an authorization for WPSC to conduct this work pursuant to Section 107(d) and 122(e)(6) of CERCLA, 42 U.S.C. §9607(d) and 42 U.S.C. §9622(e)(6). In accordance with this authorization, EPA has reviewed and provided comments on the Removal Action Work Plan. EPA has no further comment. All data as part of this work will be carried into the Remedial Investigation/Feasibility Study for the respective OU, and the need, if any, for additional action will be evaluated as part of the Remedial Investigation/Feasibility Study.

If you have any questions, please feel free to contact me.

Sincerely,

10/12/2022

X 

Leah Werner, Remedial Project Manager
Superfund & Emergency Management Division
