Subject: RE: Green Bay SSWP Addendum Rev 1 and RTC for your review

CAUTION: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon Frank,

EPA has no further comment on the SSWP Addendum 1, Rev 1. Per our conversation yesterday, it's my understanding that the seven monitoring wells will be re-drilled on 7/20 and 7/21 and then sampling will be performed on 7/24-7/28. I will be on-site for at least one day of the sampling efforts, and would appreciate if you can keep me updated on the field schedule so I can plan to be on-site on the day that makes most sense to oversee the most work. I will be out tomorrow, 7/13, through 7/19, but will try to check in with my email every so often.

Further, since there will be no contractor oversight during the RI activities, I'd appreciate if you can provide to Adrienne and I with daily field documentation. A picture or scan of the following documents would be sufficient:

1. **Calibration records.** Form or field book with sufficient detail.
2. **Daily field book.** Needs to include detail not captured in equipment calibration log and other field logs.
3. **Soil boring log**
4. **Monitoring well construction log**
5. **PID Screening.** This information is likely to be tracked directly on soil boring and monitoring well installation logs.
6. **Borehole/Well abandonment.** Form or as documented in field books with sufficient detail.
7. **Chains of custody**
8. **Annotated figures.** To document any final locations which differ from proposed locations due to utilities, refusal, etc.
9. **Well development log**
10. **Groundwater sampling log**
11. **Photo log.** Log or as noted in field books to include descriptions/details shown in each picture.

I understand this is an extensive list so please let me know if there's any issue providing this at the end of each field day.

Thank you,

Leah Werner

Subject: Green Bay SSWP Addendum Rev 1 and RTC for your review

Good Morning Leah,

Attached please find WPSC's response to comments and Rev 1 of the RI SSWP Addendum for the former Green Bay, WI MGP site. We have also included a redline/strike out version of the document for your convenience. Please feel free to contact me if there are any questions or if additional information may be needed.

Thanks and have a great Holiday weekend.
