Subject: Well Water Sample Request and Access Agreement for Property at:  
2803 Orchard Ln, Manitowoc, WI 54220  
Parcel No. 5280110205000  
Township 18 N, Range 23 E, Section 1

Dear City Of Manitowoc:

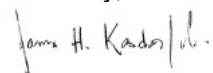

The purpose of this letter and access agreement is to request your permission to allow the Wisconsin Department of Natural Resources (WDNR) to collect a water sample from the private well located on your property. The water sample will be analyzed for Volatile Organic Compounds (VOC). This sampling event is planned because low-level VOCs were identified in a nearby private well. WDNR would like to collect the samples on either November 8<sup>th</sup> or 9<sup>th</sup>, 2017. The results of any laboratory report will become a public record which is subject to the Open Records Request Laws.

The WDNR intends to sample the wells in your area on a *representative* basis, which means that some, but not all of the wells in your area, will be sampled. The representative approach will allow WDNR to collect a sufficient number of samples and determine whether additional sampling may be needed. Therefore, this letter is intended to notify you of this sampling event, but does not necessarily mean your specific well will be sampled during this event. The WDNR will incur all charges for this sampling event. There will be no cost to you. The access agreement is included on the back side of this page.

If you have any other questions about your drinking water quality, or if you observe changes in your water quality, you are encouraged to contact WDNR. General information for homeowners with private wells can be found here: <http://dnr.wi.gov/topic/wells/homeowners.html>. Additional information for testing water from your private well can be found here: <http://dnr.wi.gov/topic/wells/privatewelltest.html>.

Please feel free to contact me if you have any questions or note any changes in your water quality. I can be reached at 715-579-9729.

Sincerely,

Jim Kasdorf  
Bureau of Drinking Water and Groundwater

Cc: Marty Nessman – WDNR  
Tauren Beggs – WDNR  
Karen Dorow – City of Manitowoc

Wisconsin Department of Natural Resources  
**Access Permission Agreement**

I, City Of Manitowoc hereby give permission to  
(Print Name)

the Wisconsin Department of Natural Resources (DNR) and its employees, duly authorized representatives, agents and contractors, to enter upon and have access at reasonable times to the home/business located at:

2803 Orchard Ln, Manitowoc, WI 54220, Township 18 N, Range 23 E, Section 1, Parcel No. 5280110205000, Manitowoc County, Wisconsin,

and that is owned by City Of Manitowoc.  
(Print Name)

The access permission is for the following purposes: that the DNR may collect a water sample from your private well and analyze the sample for Volatile Organic Compounds (VOC). This sampling event is potentially associated with the ongoing Former Town of Newton Gravel Pit Site Investigation (BRRTS No. 02-36-000268), which is located near your property. This permission allows the DNR or its authorized representative to:

- (1) Flush your well using either an outside spigot and garden hose and/or flush the well from the sample tap located on the water lateral which enters your home/business.
- (2) Collect and fill at least three (3) separate 40-millileter vials with water from your well. The DNR sampling personnel will determine the best location to collect the sample.
- (3) Complete all associated paperwork and submit the sample to Wisconsin State Lab of Hygiene for analysis of VOC.

The permission that is granted shall remain in effect until Friday, December 1, 2017, when the water sampling work is expected to be complete. If an extension is necessary to complete the work, DNR will inform you in writing. There will be no cost to you.

- (1) Flush your well using either an outside spigot and garden hose and/or flush the well from the sample tap located on the water lateral which enters your home/business.
- (2) Collect and fill at least three (3) separate 40-millileter vials with water from your well. The DNR sampling personnel will determine the best location to collect the sample.
- (3) Complete all associated paperwork and submit the sample to Wisconsin State Lab of Hygiene for analysis of VOC.

The permission that is granted shall remain in effect until Friday, December 1, 2017, when the water sampling work is expected to be complete. If an extension is necessary to complete the work, DNR will inform you in writing. There will be no cost to you.

Redue Homes  
2509 Nelson Ln  
Manitowoc, WI 54220

Subject: Well Water Sample Request and Access Agreement for Property at:  
2509 Nelson Ln, Manitowoc, WI 54220  
Parcel No.  
Township 18 N, Range 24 E, Section 6

Dear Redue Homes:

The purpose of this letter and access agreement is to request your permission to allow the Wisconsin Department of Natural Resources (WDNR) to collect a water sample from the private well located on your property. The water sample will be analyzed for Volatile Organic Compounds (VOC). This sampling event is planned because low-level VOCs were identified in a nearby private well. WDNR would like to collect the samples on either November 8<sup>th</sup> or 9<sup>th</sup>, 2017. The results of any laboratory report will become a public record which is subject to the Open Records Request Laws.

The WDNR intends to sample the wells in your area on a *representative* basis, which means that some, but not all of the wells in your area, will be sampled. The representative approach will allow WDNR to collect a sufficient number of samples and determine whether additional sampling may be needed. Therefore, this letter is intended to notify you of this sampling event, but does not necessarily mean your specific well will be sampled during this event. The WDNR will incur all charges for this sampling event. There will be no cost to you. The access agreement is included on the back side of this page.

If you have any other questions about your drinking water quality, or if you observe changes in your water quality, you are encouraged to contact WDNR. General information for homeowners with private wells can be found here: <http://dnr.wi.gov/topic/wells/homeowners.html>. Additional information for testing water from your private well can be found here: <http://dnr.wi.gov/topic/wells/privatewelltest.html>.

Please feel free to contact me if you have any questions or note any changes in your water quality. I can be reached at 715-579-9729.

Sincerely,

Jim Kasdorf  
Bureau of Drinking Water and Groundwater

Wisconsin Department of Natural Resources  
**Access Permission Agreement**

I, Redue Homes hereby give permission to  
(Print Name)

the Wisconsin Department of Natural Resources (DNR) and its employees, duly authorized representatives, agents and contractors, to enter upon and have access at reasonable times to the home/business located at:

2509 Nelson Ln, Manitowoc, WI 54220, Township 18 N, Range 24 E, Section 6, Parcel No. , Manitowoc County, Wisconsin,

and that is owned by Redue Homes.  
(Print Name)

The access permission is for the following purposes: that the DNR may collect a water sample from your private well and analyze the sample for Volatile Organic Compounds (VOC). This sampling event is potentially associated with the ongoing Former Town of Newton Gravel Pit Site Investigation (BRRTS No. 02-36-000268), which is located near your property. This permission allows the DNR or its authorized representative to:

- (1) Flush your well using either an outside spigot and garden hose and/or flush the well from the sample tap located on the water lateral which enters your home/business.
- (2) Collect and fill at least three (3) separate 40-millileter vials with water from your well. The DNR sampling personnel will determine the best location to collect the sample.
- (3) Complete all associated paperwork and submit the sample to Wisconsin State Lab of Hygiene for analysis of VOC.

The permission that is granted shall remain in effect until Friday, December 1, 2017, when the water sampling work is expected to be complete. If an extension is necessary to complete the work, DNR will inform you in writing. There will be no cost to you.

Wisconsin Department of Natural Resources  
Access Permission Agreement

I, Robert and Anita Moore hereby give permission to  
(Print Name)

the Wisconsin Department of Natural Resources (DNR) and its employees, duly authorized representatives, agents and contractors, to enter upon and have access at reasonable times to the home/business located at:

3008 South 26<sup>th</sup> St, Manitowoc, WI 54220, Township 18 N, Range 23 E, Section 1, Parcel No. 01400100400200, Manitowoc County, Wisconsin,

and that is owned by Robert and Anita Moore.  
(Print Name)

The access permission is for the following purposes: that the DNR may collect a water sample from your private well and analyze the sample for Volatile Organic Compounds (VOC). This sampling event is potentially associated with the ongoing Former Town of Newton Gravel Pit Site Investigation (BRRTS No. 02-36-000268), which is located near your property. This permission allows the DNR or its authorized representative to:

- (1) Flush your well using either an outside spigot and garden hose and/or flush the well from the sample tap located on the water lateral which enters your home/business.
- (2) Collect and fill at least three (3) separate 40-millileter vials with water from your well. The DNR sampling personnel will determine the best location to collect the sample.
- (3) Complete all associated paperwork and submit the sample to Wisconsin State Lab of Hygiene for analysis of VOC.

The permission that is granted shall remain in effect until Friday, December 1, 2017, when the water sampling work is expected to be complete. If an extension is necessary to complete the work, DNR will inform you in writing. There will be no cost to you.

Subject: Well Water Sample Request and Access Agreement for Property at:  
3021 South 26<sup>th</sup> St, Manitowoc, WI 54220  
Parcel No. 00900600700301  
Township 18 N, Range 24 E, Section 6

Dear Patrick Kennedy:

The purpose of this letter and access agreement is to request your permission to allow the Wisconsin Department of Natural Resources (WDNR) to collect a water sample from the private well located on your property. The water sample will be analyzed for Volatile Organic Compounds (VOC). This sampling event is planned because low level VOCs were identified in a nearby private well. WDNR would like to collect the samples on either November 8<sup>th</sup> or 9<sup>th</sup>, 2017. The results of any laboratory report will become a public record which is subject to the Open Records Request Laws.

The WDNR intends to sample the wells in your area on a representative basis, which means that some, but not all of the wells in your area, will be sampled. The representative approach will allow WDNR to collect a sufficient number of samples and determine whether additional sampling may be needed. Therefore, this letter is intended to notify you of this sampling event, but does not necessarily mean your specific well will be sampled during this event. The WDNR will incur all charges for this sampling event. There will be no cost to you. The access agreement is included on the back side of this page.

If you have any other questions about your drinking water quality, or if you observe changes in your water quality, you are encouraged to contact WDNR. General information for homeowners with private wells can be found here: <http://dnr.wi.gov/topic/wells/homeowners.html>. Additional information for testing water from your private well can be found here: <http://dnr.wi.gov/topic/wells/privatewelltest.html>.

Please feel free to contact me if you have any questions or note any changes in your water quality. I can be reached at 715-579-9729.

Sincerely,

Jim Kasdorf  
Bureau of Drinking Water and Groundwater
