Subject: Well Water Sample Request and Access Agreement for Property at:  
2201 Elm Rd, Manitowoc, WI 54220  
Parcel No. 900600700600  
Township 18 N, 24 E, Section 6

Dear Love III Robert M & Jodi L:

The purpose of this letter and access agreement is to request your permission to allow the Wisconsin Department of Natural Resources (WDNR) to collect a water sample from the private well located on your property. The water sample will be analyzed for Volatile Organic Compounds (VOC). **There have now been two private wells in close proximity to your property that have had VOC detections in the water that is not safe for drinking purposes.** Those property owners were provided with clean drinking water after the private well sampling results were received from the laboratory. In order to determine if the water in your private well is safe for drinking, WDNR highly recommends you allow access to sample. WDNR would like to collect the samples as soon as possible. The results of any laboratory report will become a public record which is subject to the Open Records Request Laws.

The WDNR intends to sample the wells in your area on a representative basis, which means that some, but not all of the wells in your area, will be sampled. The representative approach will allow WDNR to collect a sufficient number of samples and determine whether additional sampling may be needed. Therefore, this letter is intended to notify you of this sampling event, but does not necessarily mean your specific well will be sampled during this event. The WDNR will incur all charges for this sampling event. There will be no cost to you. The access agreement is included on the back side of this page.

If you have any other questions about your drinking water quality, or if you observe changes in your water quality, you are encouraged to contact WDNR. General information for homeowners with private wells can be found here: <http://dnr.wi.gov/topic/wells/homeowners.html>. Additional information for testing water from your private well can be found here: <http://dnr.wi.gov/topic/wells/privatewelltest.html>.

Please feel free to contact me if you have any questions or note any changes in your water quality. I can be reached at 715-579-9729.

Sincerely,

Jim Kasdorf  
Bureau of Drinking Water and Groundwater

cc: Marty Nessman – WDNR  
Tauren Beggs – WDNR  
Karen Dorow – City of Manitowoc

Wisconsin Department of Natural Resources  
**Access Permission Agreement**

I, Love III Robert M & Jodi L hereby give permission to  
(Print Name)

the Wisconsin Department of Natural Resources (DNR) and its employees, duly authorized representatives, agents and contractors, to enter upon and have access at reasonable times to the home/business located at:

2201 Elm Rd, Manitowoc, WI 54220, Township 18 N, Range 24 E, Section 6, Parcel No. 900600700600,  
Manitowoc County, Wisconsin, and that is owned by Love III Robert M & Jodi L.  
(Print Name)

The access permission is for the following purposes: that the DNR may collect a water sample from your private well and analyze the sample for Volatile Organic Compounds (VOC). This permission allows the DNR or its authorized representative to:

- (1) Flush your well using either an outside spigot and garden hose and/or flush the well from the sample tap located on the water lateral which enters your home/business.
- (2) Collect and fill at least three (3) separate 40-millileter vials with water from your well. The DNR sampling personnel will determine the best location to collect the sample.
- (3) Complete all associated paperwork and submit the sample to Wisconsin State Lab of Hygiene for analysis of VOC.

The permission that is granted shall remain in effect until February 28, 2017, when the water sampling work is expected to be complete. If an extension is necessary to complete the work, DNR will inform you in writing. There will be no cost to you.

Subject: Well Water Sample Request and Access Agreement for Property at:  
2501 Nelson Ln, Manitowoc, WI 54220  
Parcel No. 900600601000  
Township 18 N, 24 E, Section 6

Dear Kaeovongphet Kao & Layord:

The purpose of this letter and access agreement is to request your permission to allow the Wisconsin Department of Natural Resources (WDNR) to collect a water sample from the private well located on your property. The water sample will be analyzed for Volatile Organic Compounds (VOC). **There have now been two private wells in close proximity to your property that have had VOC detections in the water that is not safe for drinking purposes.** Those property owners were provided with clean drinking water after the private well sampling results were received from the laboratory. In order to determine if the water in your private well is safe for drinking, WDNR highly recommends you allow access to sample. WDNR would like to collect the samples as soon as possible. The results of any laboratory report will become a public record which is subject to the Open Records Request Laws.

The WDNR intends to sample the wells in your area on a representative basis, which means that some, but not all of the wells in your area, will be sampled. The representative approach will allow WDNR to collect a sufficient number of samples and determine whether additional sampling may be needed. Therefore, this letter is intended to notify you of this sampling event, but does not necessarily mean your specific well will be sampled during this event. The WDNR will incur all charges for this sampling event. There will be no cost to you. The access agreement is included on the back side of this page.

If you have any other questions about your drinking water quality, or if you observe changes in your water quality, you are encouraged to contact WDNR. General information for homeowners with private wells can be found here: <http://dnr.wi.gov/topic/wells/homeowners.html>. Additional information for testing water from your private well can be found here: <http://dnr.wi.gov/topic/wells/privatewelltest.html>.

Please feel free to contact me if you have any questions or note any changes in your water quality. I can be reached at 715-579-9729.

Sincerely,

Jim Kasdorf  
Bureau of Drinking Water and Groundwater

cc: Marty Nessman – WDNR

Wisconsin Department of Natural Resources  
**Access Permission Agreement**

I, Kaeovongphet Kaeo & Layord hereby give permission to  
(Print Name)

the Wisconsin Department of Natural Resources (DNR) and its employees, duly authorized representatives, agents and contractors, to enter upon and have access at reasonable times to the home/business located at:

2501 Nelson Ln, Manitowoc, WI 54220, Township 18 N, Range 24 E, Section 6, Parcel No. 900600601000,  
Manitowoc County, Wisconsin, and that is owned by Kaeovongphet Kaeo & Layord.  
(Print Name)

The access permission is for the following purposes: that the DNR may collect a water sample from your private well and analyze the sample for Volatile Organic Compounds (VOC). This permission allows the DNR or its authorized representative to:

- (1) Flush your well using either an outside spigot and garden hose and/or flush the well from the sample tap located on the water lateral which enters your home/business.
- (2) Collect and fill at least three (3) separate 40-millileter vials with water from your well. The DNR sampling personnel will determine the best location to collect the sample.
- (3) Complete all associated paperwork and submit the sample to Wisconsin State Lab of Hygiene for analysis of VOC.

The permission that is granted shall remain in effect until February 28, 2017, when the water sampling work is expected to be complete. If an extension is necessary to complete the work, DNR will inform you in writing. There will be no cost to you.

The access permission is for the following purposes: that the DNR may collect a water sample from your private well and analyze the sample for Volatile Organic Compounds (VOC). This permission allows the DNR or its authorized representative to:

- (1) Flush your well using either an outside spigot and garden hose and/or flush the well from the sample tap located on the water lateral which enters your home/business.
- (2) Collect and fill at least three (3) separate 40-milliliter vials with water from your well. The DNR sampling personnel will determine the best location to collect the sample.
- (3) Complete all associated paperwork and submit the sample to Wisconsin State Lab of Hygiene for analysis of VOC.

The permission that is granted shall remain in effect until February 28, 2017, when the water sampling work is expected to be complete. If an extension is necessary to complete the work, DNR will inform you in writing. There will be no cost to you.

Subject: Well Water Sample Request and Access Agreement for Property at:  
3212 S 26Th St, Manitowoc, WI 54220  
Parcel No. 1400100400500  
Township 18 N, 23 E, Section 1

Dear Fisher Thomas W:

The purpose of this letter and access agreement is to request your permission to allow the Wisconsin Department of Natural Resources (WDNR) to collect a water sample from the private well located on your property. The water sample will be analyzed for Volatile Organic Compounds (VOC). **There have now been two private wells in close proximity to your property that have had VOC detections in the water that is not safe for drinking purposes.** Those property owners were provided with clean drinking water after the private well sampling results were received from the laboratory. In order to determine if the water in your private well is safe for drinking, WDNR highly recommends you allow access to sample. WDNR would like to collect the samples as soon as possible. The results of any laboratory report will become a public record which is subject to the Open Records Request Laws.

The WDNR intends to sample the wells in your area on a representative basis, which means that some, but not all of the wells in your area, will be sampled. The representative approach will allow WDNR to collect a sufficient number of samples and determine whether additional sampling may be needed. Therefore, this letter is intended to notify you of this sampling event, but does not necessarily mean your specific well will be sampled during this event. The WDNR will incur all charges for this sampling event. There will be no cost to you. The access agreement is included on the back side of this page.

If you have any other questions about your drinking water quality, or if you observe changes in your water quality, you are encouraged to contact WDNR. General information for homeowners with private wells can be found here: <http://dnr.wi.gov/topic/wells/homeowners.html>. Additional information for testing water from your private well can be found here: <http://dnr.wi.gov/topic/wells/privatewelltest.html>.

Please feel free to contact me if you have any questions or note any changes in your water quality. I can be reached at 715-579-9729.

Sincerely,

Jim Kasdorf  
Bureau of Drinking Water and Groundwater
