Subject: Open House for the Manitowoc/Town of Newton Gravel Pit Site

Hi Amy,

I hope you are doing well! I am reaching out to provide you an update and to see if you want to attend another Open House for the Manitowoc/Town of Newton Gravel Pit site. Based on private well sampling results, the City of Manitowoc and their environmental consultant AECOM have expanded their private well sampling efforts into the Town of Manitowoc for chlorinate volatile organic compounds. Their expanded private well sampling started in early November and is still currently ongoing. The City and AECOM plan to have an Open House for the residents to get updates and ask any questions they may have. They are looking to schedule the Open House either the first or second Saturday in March (the 7th or 14th). I have also asked Curtis Hedman from DHS to attend. Please let me know if you want to attend the Open House, and as we get closer to March, I will provide additional details on place and time, etc.

Thanks,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
