Subject: Manitowoc Sites

Dear Ms. Gruen-

We have reviewed your letters dated August 14, 2020, summarizing the enforcement conferences.

Regarding Mirro 9, Newell intends to submit an additional SIWP that addresses all contaminants of concern in all environmental media. We have communicated with the City's attorneys and have requested certain databases from the City regarding the conditions at the site. However, we are requesting a 30-day extension of the deadline, to October 14, 2020.

Regarding Newton Gravel Pit, I met with the City's attorneys and we are close to finalizing our agreement resolving claims relating to costs for historic work. We also began discussing the possibility of an agreement relating to the cost of future work. I have also requested databases regarding this site.

Please let me know if you have any questions regarding the foregoing.

Gabe
