Subject: Notice to Proceed with Emerging Contaminant WP Update #2, Continued On-site Investigation. Manitowoc City/Former Newton Tn Gravel Pit, BRRTS # 02-36-000268

Hi Dave,

This email acts as a general notice to proceed with the above referenced work plan.

The only comment for the work plan is that DNR highly recommends confirmation sampling be completed for private well locations where concentrations were detected but were below the proposed enforcement standards and Hazard Index.

Regards,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Subject: Former Newton Pit - Emerging Contaminant WP Update #2, Continued On-site Investigation

Team,

Attached is the *Emerging Contaminant Work Plan #2 – Continued On-site Investigation* for the Former Newton Pit.

Tauren, I have also submitted this through the WDNR's portal system.

Thanks
dsh
