Hi Dave,

This email acts as a general notice to proceed with the above referenced work plan.

The only comment for the work plan is that DNR wants a quick summary of the results after the laboratory analytical data has been received for this proposed work, since the work is planned in Spring 2021 and the annual report that these results will be officially provided in are normally not submitted until late in the year.

Team,

Attached is the *Emerging Contaminant Work Plan #3 – Area Wide Potable Well Investigation* for the Former Newton Pit.

Tauren, I have also submitted this through the WDNR's portal system.

Thanks

dsh
