Subject: Request to adjourn Town Hall

Hi Tauren and Roxanne,

Thanks for taking the time to chat last week. The City would like to adjourn the Town Hall regarding the Newton Gravel Pit until the fall for a few reasons:

1. We don't have PSC approval for the water main and would like to be able to share that good news with the public if approval goes through
2. We're in the middle of sampling now and would have a better idea of who to invite once we have sampling results
3. As we discussed, we think splitting the town hall for new impacts/old impacts might be better so that nobody in the public has to sit through duplicative information

We will be in touch as we wind through the PSC approval process and have a potential date in mind.
