Subject: RE: City of Manitowoc SDW project

Thanks for the heads up Kevin. I see we've got an email from Rob stating that as well. I have no objection with them using ARPA funds for this project. Rob mentions it in his email, and I agree, that they should wait to formally withdraw their SDWLP application until they know for certain that ARPA funds can cover the entire project.

Subject: City of Manitowoc SDW project

Good Afternoon,

I just got off the phone with Rob Michelson from the City of Manitowoc; he stated that the City received ARPA funds and the City Council decided to apply those funds to this project. He stated that Manitowoc would like to pause action with our program funding with the hopes that this funding will be sufficient to cover the project costs. I believe he will be sending out a letter within the day relaying this information.

Have a great day,

We are committed to service excellence.
