Jennine,

I apologize I never followed up on my e-mail to Katie about whether the deed restriction was needed. In reviewing the soil results, the deed restriction will be needed since the residual soil contamination is greater the site-specific residual contaminant levels. I had made my comments on the document and I think it was ready to be recorded. Again I apologize for the delay. Once a copy of the recorded deed restriction is submitted, the final closure letter will be sent. Lisa
