Lisa,
Good morning, I thought of one additional item we would like to request for Wauleco monitoring well W9. In addition to the well construction report, recent groundwater elevation data and sampling data, and the groundwater elevation data from 2009; we would like to request the soil boring log from the well installation.

We would like to review any geology information for that location if available. Any information you can provide is greatly appreciated.

It was very nice to meet you this week. Thanks again, have a great weekend.

Rebecca
