Dear Mr. Schock:

Your proposed interim action change order #16 is approved. You may proceed with the proposed work. The DNR received the proposal titled Change order No. 16 for Environmental Services, Limited "Hot Spot" Removal and Other Site Closure Activities (Interim Action) prepared by AECOM and submitted on your behalf on August 15, 2018. Work proposed under this change order includes "hot spot" excavation, vapor sampling, and preparation of a closure packet for the DNR.

The Dry Cleaner Environmental Repair Fund (DERF) reimbursement amount is capped at \$500,000, the total cost for work at this site is expected to be \$545,017.00- therefore not all the costs associated with this action will be reimbursed. The DERF fund manager will determine the final reimbursement amount upon claim review.

Please be aware that you are required to comply with all applicable statutes and administrative rules including the NR 700 series, Wisconsin Administrative Code, hazardous waste management and wastewater discharges.

This approval does not guarantee the reimbursement of costs under the Dry Cleaner Environmental Response Program. Final determination regarding the eligibility of costs for reimbursement will be made at the time of claim review.
