Re: First Quarter 2016 Onalaska Landfill Gas Monitoring  
Onalaska Municipal Landfill Site  
Onalaska, Wisconsin

Dear Ms. Erdman:

Braun Intertec Corporation (Braun Intertec) is presenting gas-monitoring data for the referenced site. The landfill gas monitoring is based on requirements of item number 18 of the Consent Decree with the United States Environmental Protection Agency (USEPA). Item number 18 states that the "settling Defendant shall take explosimeter and oxygen readings at all landfill gas monitoring wells on a quarterly basis according to procedures to be established by USEPA and Wisconsin Department of Natural Resources (WDNR), unless approval is obtained from the USEPA in consultation with WDNR to perform such readings on a less frequent basis." Mr. Larry Lester of the WDNR—South Central Region Headquarters, provided the Consent Decree information to Braun Intertec.

On March 29, 2016, Braun Intertec personnel collected oxygen and explosimeter (LEL) readings at seven landfill gas monitoring wells, identified on the landfill gas piping map, for the Onalaska municipal landfill site as LG-1 through LG-7. March oxygen level readings at gas monitoring points LG-1 and LG-2 were higher than the previous gas monitoring. Gas monitoring points LG-3 and LG-6 remained the same as the previous gas monitoring. Gas monitoring points LG-4, Lg-5 and LG-7 were lower than the previous gas monitoring. Figure 1 depicts the oxygen level readings versus time. The March LEL readings at gas monitoring points LG-1 through LG-7 remained the same as the previous gas monitoring. Figure 2 depicts the LEL readings versus time. Tables 1A and 1B provide a historical summary of oxygen and LEL readings. The LEL and oxygen field readings, along with site observations, are provided on the Site Visit Sheet.

If you have any questions or comments regarding this project, please call David Bradshaw at 608.781.7277.

Sincerely,

BRAUN INTERTEC CORPORATION

David M. Bradshaw  
Environmental Field Technician
