Hi Erica,

I saw this NR700 Semi-Annual report come in and wanted to respond to the comments. In April 2021, Chris Saari and myself discussed with Jeff Anderson of MSA the possibilities of this site for WAM funding. In April it was agreed that the site (if the owner's were interested) was likely going to seek funding from WAM. The department has not seen a WAM application come in for the site, nor have we seen any additional communications regarding the site. Prior to the conversations of the site seeking WAM funds, I believe the department was awaiting a workplan for additional site activities.

If you have any questions regarding the site, please feel free to contact me.

Sincerely, Barb
