Thiensville, WI 53092

Dear Ms. Hinrichs:

RE: Plan approval for investigation at 120 W. Freistadt
Rd., Thiensville

I have reviewed your work plan proposal from Environmental Associates for investigation at the site. I am approving the plan. The Department asks the following:

1. Test soil samples also for Total Petroleum Hydrocarbons (as gasoline and diesel) and the Toxicity Characteristic Leaching Procedure.
2. Identify nearby water supply wells that may be at risk.

*full range
organics + metals*

If you have any questions, please call me at 414-263-8654 or write to the above letterhead address.

Sincerely,

John Feeney
