Dear Ms. Hinrichs:

RE: Soil and ground water contamination at 120 West Freistadt Road,  
Thiensville

The Department has not had any contact regarding monitoring or environmental clean up at this site since April of 1991. The report received at that date indicates additional work needs to be done. Margaret Graefe will be handling this case. Please provide her with any information you may have that would bring us up to date. Her phone number is (414) 263-8646 and she has the above letter head address.

The Department identifies you as the party responsible for taking the actions necessary to restore the environment.

Wisconsin Statute 144.76(3) states: "A person who possesses or controls a hazardous substance which is discharged or who causes the discharge of a hazardous substance shall take the actions necessary to restore the environment to the extent practicable and minimize the harmful effects from the discharge to the air, lands, or waters of this state."

Sincerely,

  
John Feeney
