Subject: FW: Magellan Pipeline - Closure Request Revisions
Attachments: 4400-202 Magellan Superior Closure Request -Revised Page 15 06 2021.pdf

Hi Grant,

Per your request, I have attached a revised page 15 of the Closure Request form. Please insert this revised page into the final copy of the closure request.

Magellan is working with BNSF to obtain an environmental access agreement to complete the well abandonment activities. Once the access agreement has been executed, we will move forward with the well abandonment activities.

Please note: BNSF has not provided feedback on the well abandonment work plan that was submitted for their review, nor have they issued the draft access agreement for Magellan's review. What is the process for requesting an extension for the well abandonment activities if the BNSF access agreement is not finalized in the next few weeks?

Thanks,

Jennifer Shelton, P.E. (WI, GA, IL, OH, SC, TN, WV)
