Subject:
Bimonthly Progress Report – July and August 2018
Former Koppers Inc. Superior, WI Facility
WID 006-179-493

ENVIRONMENT

Dear Mr. Saari:

Date:
September 18, 2018

On behalf of Beazer East, Inc. (Beazer), Arcadis is submitting the Bimonthly Progress Report for the period of July and August 2018 for the Former Koppers Inc. Facility in Superior, Wisconsin. This report is prepared in compliance with Wisconsin's Hazardous Waste Facility Investigations Guidelines and the facility Part B Permit. If you have any comments or questions concerning this progress report, please contact Ms. Jane Patarcity of Beazer at 412.208.8813 or me at 218.208.3427.

**Bimonthly Progress Report
July and August 2018**

Former Koppers Inc. – Superior, WI Facility
WID 006-179-493

A. Current Activities

On September 12, 2011, Beazer submitted a Construction Documentation Report for the completed on-property corrective measures. WDNR issued a conditional approval of the report on October 21, 2011, but withheld final approval pending Beazer's submittal of an acceptable continuing obligations/GIS Registry package. A Notification of Continuing Obligations and Residual Contamination was submitted to the current property owner on June 16, 2014. A GIS Registry package was submitted to WDNR on August 5, 2015. Final WDNR approval of the on-property corrective measures is pending.

On July 7, 2016, Beazer submitted to WDNR a letter regarding non-hazardous waste determination for sediments and soils that may be managed in the off-property portion of the Site as part of future corrective actions. On July 12, 2016, WDNR requested additional information regarding other sites where similar waste determinations were accepted. Beazer submitted the requested information to WDNR in a letter dated November 1, 2016. In a letter dated November 28, 2016, WDNR provided copies of Hazardous Waste Annual Reports and Hazardous Waste Manifest Records for Beazer's consideration. On February 7, 2017, Beazer submitted a response to WDNR's November 28 letter.

Beazer and USEPA continued to work on the Great Lakes Legacy Act (GLLA) Focused Feasibility Study (FFS) project for the off-property portion of the Site during this reporting period. Due to project team availability, July and August project status update emails were submitted to the project team on August 13, 2018, in lieu of monthly update calls.

B. Summary of Findings

See Section I below.

C. Schedule

No schedule updates were submitted during this reporting period.

D. Progress

Refer to Sections A and C of this report.

E. Problems Encountered

No problems were encountered this reporting period.

**Bimonthly Progress Report
July and August 2018**

Former Koppers Inc. – Superior, WI Facility
WID 006-179-493

F. Corrective Action

No corrective actions were required this reporting period.

G. Project Personnel

No changes to project personnel occurred during this reporting period.

H. Response to Agency Comments on RFI Reports

No responses to agency comments were submitted during this reporting period.

I. Reports Submitted to the Agency

On July 2, 2018, FTS submitted the *First Semi-Annual 2018 RCRA Groundwater Monitoring Results* to WDNR.

On July 10, 2018, FTS submitted the *2017 On-Property Corrective Measures Monitoring & Maintenance Report* to WDNR.

On July 21, 2018, Arcadis submitted the NR 700 Semi-Annual Site Progress Report to WDNR.

J. Projected Work for the next Reporting Period

Beazer and USEPA will continue to work on the GLLA FFS project, including participating in monthly update calls with WDNR.
