Subject: RE: Second Semi-Annual 2022 RCRA GW Monitoring Report Appendix F ASCII Data File

Hi Jane,

There are 11 result records for p-code 34551 (1,2,4-TRICHLOROBENZENE IN WHOLE WATER SAMPLE(UG/L)) in the file. According to GEMS, Eurofins Pittsburgh, Lab ID 998027800 was not certified for the analysis. Is the lab ID correct?

~Mike
