Hello Shaun – this communication appears to relate to WDNR Case Number 02-16-585874, which specifically relates to closure of the RCRA Subpart W drip pad, for which Koppers Inc. is the responsible party identified by WDNR. You should forward this communication to Koppers, as reporting for this WDNR Case Number is not something that Beazer is responsible for.

Thanks,  
Tim

Hi Lisa –

Sorry I have not had a chance to return your call. The process is very simple. You click the link provided and answer just 2 questions regarding what work has been performed and add additional text if desired.

It looks like David Beazer from Arcadis does the reporting for another activity at this site. Here is what he reported. Should he be listed as a contact on the 02-16-585874 as well? If you would like him to report for that activity as well, you can forward the email to him.
