Dear Mr. Sager:

On behalf of Beazer East, Inc. (Beazer), Arcadis is submitting the Bimonthly Progress Report for the period of May and June 2023 for the Former Koppers Inc. Facility in Superior, Wisconsin. If you have any comments or questions concerning this progress report, please contact Ms. Jane Patarcity of Beazer at 412.208.8813 or me at 218.208.3427.

Sincerely,  
Arcadis U.S., Inc.

## **Bimonthly Progress Report**

**May and June 2023**

Former Koppers Inc. Superior, WI Facility  
WID 006-179-493  
BRRTS 02-16-000484

### **A. Current Activities**

On September 12, 2011, Beazer submitted a Construction Documentation Report for the completed on-property corrective measures. WDNR issued a conditional approval of the report on October 21, 2011, but withheld final approval pending Beazer's submittal of an acceptable continuing obligations/GIS Registry package. A Notification of Continuing Obligations and Residual Contamination was submitted to the current property owner on June 16, 2014. A GIS Registry package was submitted to WDNR on August 5, 2015. Final WDNR approval of the on-property corrective measures is pending.

On May 5, 2021, WDNR issued a letter to Beazer regarding close-out of the hazardous waste compliance assessment. On November 1, 2021, Beazer submitted responses to WDNR's May 5, 2021 hazardous waste compliance assessment letter, along with a Long-Term Care License Renewal Application. On May 10, 2022, WDNR provided comments on Beazer's November 1, 2021 Long-Term Care License Renewal Application. On October 10, 2022 Beazer submitted responses to WDNR's May 10, 2022 comments, along with a revised Long-Term Care License Renewal Application. WDNR acknowledged receipt of Beazer's October 10, 2022 submittal in a letter to Beazer dated October 21, 2022. On May 1, 2023, WDNR submitted a letter to Beazer providing comments on and requesting additional information pertaining to Beazer's October 10, 2022 submittal. Beazer is currently preparing a response to WDNR's May 1, 2023 letter.

Beazer and USEPA continued to work on the Great Lakes Legacy Act (GLLA) Focused Feasibility Study (FFS) project for the off-property portion of the Site during this reporting period. GLLA project-related activities conducted during this reporting period included preparing a stand-alone Focused Feasibility Study for Sub-Area A and developing a scope of work for additional data gap investigations for Sub-Areas B and C.

### **B. Summary of Findings**

See Section I below.

### **C. Schedule**

No schedule updates were submitted during this reporting period.

### **D. Progress**

Refer to Sections A and C of this report.

### **E. Problems Encountered**

No problems were encountered this reporting period.

### **F. Corrective Action**

No corrective actions were required this reporting period.

### **G. Project Personnel**

No project personnel changes occurred during this reporting period.

### **H. Response to Agency Comments on RFI Reports**

No responses to WDNR comments were submitted during this reporting period.

**I. Reports Submitted to the Agency**

On June 19, 2023, FTS submitted to WDNR the First Semi-Annual 2023 RCRA Groundwater Monitoring Results.

**J. Projected Work for the next Reporting Period**

Beazer and USEPA will continue to work on the GLLA FFS project, including preparing a stand-alone Focused Feasibility Study for Sub-Area A and developing a scope of work for additional data gap investigations for Sub-Areas B and C.

Beazer will submit a response to WDNR's May 1, 2023 comments on Beazer's October 10, 2022 letter and revised Long-Term Care License Renewal Application.
