Dave and others,

DNR trusts that our comments have been satisfactorily responded to in the spirit of collaboration under a GLLA project, given the involvement of EPA GLNPO and its consultant. We do not have additional comments on the DGI work plan and wish you the best in carrying out this critical work.

Please let us know when the field crew will be mobilized to the site for sample collection, as we would like to observe as our schedules allow.

Sincerely,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Joe Graham

Hi Again,

Attached for WDNR's review/approval is a revised draft DGI Work Plan, with revisions made to address WDNR's comments discussed during the April 2, 2024 conference call (and a few USEPA comments).

Please let us know if WDNR's comments have been satisfactorily addressed, and whether you have any additional comments.

Thanks, Dave

David Bessingpas
