A. Current Activities

On September 12, 2011, Beazer submitted a Construction Documentation Report for the completed on-property corrective measures. WDNR issued a conditional approval of the report on October 21, 2011, but withheld final approval pending Beazer's submittal of an acceptable continuing obligations/GIS Registry package. A Notification of Continuing Obligations and Residual Contamination was submitted to the current property owner on June 16, 2014. A GIS Registry package was submitted to WDNR on August 5, 2015. Final WDNR approval of the on-property corrective measures is pending.

On May 5, 2021, WDNR issued a letter to Beazer regarding close-out of the hazardous waste compliance assessment. On November 1, 2021, Beazer submitted responses to WDNR's May 5, 2021 hazardous waste compliance assessment letter, along with a Long-Term Care License Renewal Application. On May 10, 2022, WDNR provided comments on Beazer's November 1, 2021 Long-Term Care License Renewal Application. On October 10, 2022 Beazer submitted responses to WDNR's May 10, 2022 comments, along with a revised Long-Term Care License Renewal Application. On May 1, 2023, WDNR submitted a letter to Beazer providing comments on and requesting additional information pertaining to Beazer's October 10, 2022 submittal. On July 31, 2023, Beazer submitted a response to WDNR's May 1, 2023 letter. On December 15, 2023, WDNR submitted a letter to Beazer providing a draft conditional approval of Beazer's Long-Term Care License Renewal Application. On February 15, 2024, Beazer provided comments on WDNR's December 15 draft conditional approval of Beazer's Long-Term Care License Renewal Application. WDNR provided responses to Beazer's comments on April 12, 2024.

FTS completed the first semiannual groundwater monitoring event the week of April 22, 2024.

Beazer and USEPA continued to work on the Great Lakes Legacy Act (GLLA) Focused Feasibility Study (FFS) project for the off-property portion of the Site during this reporting period. GLLA project-related activities conducted during this reporting period included continuing hydrologic and hydraulic modeling for Sub-Area A, continuing development of a draft Data Gap Investigation Work Plan and Quality Assurance Project Plan (QAPP) for Sub-Areas B/C and D (a draft Data Gap Investigation Work Plan and QAPP were submitted to WDNR on March 14, 2024), and participating in a project team conference call with WDNR on April 2, 2024.
