Subject: Commercial Recycling Corporation out fall sampling results

Good morning, John, and Robert. Yesterday, I met with my supervisor, Chris Saari, and hydro-coordinator, John Sager to discuss the outfall sampling results for the Commercial Recycling property (F/K/A Doberstein Lumber and Fence, BRRS # 02-61-000488). Wisconsin Administrative Code chapter NR 140 groundwater standards do not apply to outfall samples. However, the results looked good and did not indicate any cause for concern or action from the R&R Program. Also, the investigation and remediation performed at the former Doberstein Lumber and Fence site was not in the area(s) of the suspected wetland fill. If you have any further questions, please feel free to contact me.

We are committed to service excellence.
