Murphy Oil Tanks 34/35

02-16-000522

Dear Ms. Lundmark:

On April 6, 2000 the above site was reviewed for closure by the Site Review staff of the PECFA Bureau. Because the site met the criteria for transfer to the Department of Commerce, all issues relating to this site are administered by the staff within the Department of Commerce's PECFA Bureau. Using the standards established in NR 700, the Department has determined that this site has been remediated to a level protective of the environment and human health. The Department considers this site to meet environmental standards for closure with a deed notification.

Please have your consultant complete a draft deed notice and submit this to me for review. Once it is approved you may have it attached to the deed for this property and send me a final copy with a copy of the receipt indicating it has been filed. Once this is done your site will be officially closed on our tracking system.

This is based upon the information provided to us by your consultant. If, in the future, site conditions indicate that any contamination that might remain poses a threat, the need for further remediation would be determined and required if necessary.

Be sure to include a copy of this letter with your PECFA claim package, if your site is eligible for reimbursement. Please be sure to keep all documentation related to the investigation and remediation of your site in case you ever decide to sell this property. The department has made the decision that after 3 years the files we hold for your site will be destroyed. So you are responsible for maintaining this file and passing it on to any future owners.

Thank you for your efforts in the protection of the environment. If you have any additional questions, please call me at 715-762-5557.

Sincerely,

Shanna L. Laube, P.G.
